ROSCATI

Festuca arundinacea

Profile

ROSCATI originates from the new DSV tall fescue breeding and is one of DSV's first soft-leaved tall fescue varieties. The special soft-leafiness of ROSCATI increases the acceptance of cattle on pasture. Moreover, the variety shows a good dry matter yield, good health and very good winter hardiness.

National listing/Official recommendation:
DE, FR

- Soft-leaved
- very good winter hardiness
- low susceptibility to rust

Suitability

Maturity	inter

Yield characteristics

Dry matter yield total	5	medium
Dry matter yield - 1st cut	5	medium
Dry matter yield - further cuts	6	medium to high

Plant stand development

Early growth development	6	medium to strong
Sward density	5	medium

Healthiness

Susceptibility to rust	3	low

Classification according to the descriptive variety list - Bundessortenamt (federal plant variety office, Germany) 2022 and our own results.
