

FLEETWOOD

Medicago sativa

Profile

The alfalfa variety FLEETWOOD convinces with an outstanding crude protein content and was the only variety to be awarded the top grade 7 by the German federal plant variety office. It therefore receives the Milk Index award for highest forage quality in the DSV portfolio. In addition, FLEETWOOD has good yield and persistence properties.

National listing/Official recommendation:
DE, LU

* Most alfalfa plants go dormant in the fall in preparation for winter. Early fall dormant types show very little growth after the September clipping, later fall dormant types demonstrate substantial growth. Fall dormancy is measured on a (1-9) scale, where 1=very early fall dormant and 9=non-dormant. The fall dormancy classes (2-4) are winterhardy types.

- ✓ dormany group 4-5
- ✓ Milk Index variety with high crude protein contents
- ✓ high quality variety
