

COUNTRY E 2024

Peat soils and higher altitudes

Top performance in yield and quality on peat soils and in low mountain ranges

Profile

High percentages of English ryegrass ensure high qualities and yields. Timothy improves the winterhardiness and the peat soil suitability of this mixture. The included Smooth-stalked meadow grass ensures a dense sward and high persistency. Particularly suitable for new sowings, but also for reseeding large gaps.

- ✓ High energy density
- ✓ Winterhardy Timothy
- ✓ Dense sward through Smooth-stalked meadow grass

Components

70%	Lolium perenne (intermediate) Arelio, Euroconquest, Explosion
20%	Phleum pratense Lischka, Aturo
10%	Poa pratensis Limagie

If individual varieties are not available, they are replaced by equivalent ones.
