Without clover, intercropping

Fast growing grass mixture for intercropping use

Profile

Mixture for intensive use consisting of annual ryegrass varieties for multi-cut main crop cultivation (spring sowing) or for one to two cuts after cereals as intercrop forage cultivation. High yields and qualities are achieved with intensive management.

- ✓ Fast growing mixture
- ✓ For intensive use
- ✓ 100 % Annual Ryegrass

Components

100%	Lolium westerwoldicum Alberto*, Arnoldo*, Falladino*
------	---

If individual varieties are not available, they are replaced by equivalent ones. *Also suitable for intercropping because the yield in the first cut is above average.

Locations
