

# ARNANDO

*Lolium perenne*

## Profile

ARNANDO is a diploid variety in the late maturity segment. The variety shows a good rust resistance combined with interesting yields over all cuts, especially in the first cut (Northwest German recommendation). Remarkable for ARNANDO is also its low tendency for inflorescence formation in the aftermath. The combination of high yields and a low stem production in the following cuts leads to excellent high energy yields, when ARNANDO is grown.

National listing/Official recommendation:

DE, NL

- ✓ great endurance, low susceptibility to rust
- ✓ high yields, esp. in first cut
- ✓ good sward density and leafy growth

## Suitability

Ploidy	diploid
Maturity	inter

## Yield characteristics

Dry matter yield total	<div><div></div><div></div><div></div><div></div><div></div><div>6</div><div></div><div></div><div></div></div>	medium to high
Dry matter yield - 1st cut	<div><div></div><div></div><div></div><div></div><div></div><div>6</div><div></div><div></div><div></div></div>	medium to high
Dry matter yield - further cuts	<div><div></div><div></div><div></div><div></div><div>5</div><div></div><div></div><div></div><div></div></div>	medium

## Plant stand development

Early growth development		medium
Susceptibility to winter damage		medium
Tendency to lodging		medium to strong
Persistence		medium to high
Sward density		medium to dense

## Healthiness

Susceptibility to rust		low to medium
------------------------	--	---------------

## Quality

Inflorescence formation in aftermath		low
--------------------------------------	--	-----

Classification according to the descriptive variety list - Bundessortenamt (federal plant variety office, Germany) 2020 and our own results.

All specified informations, recommendations and representations mentioned here are made to the best of our knowledge and belief, but without guarantee of completeness or accuracy. We cannot guarantee that the properties described are repeatable. All information is provided as an aid to decision-making. Deutsche Saatveredelung AG excludes adhesion for damage or claims for damages, resulting of the use for the variety specified in this description. Mixture compositions may change if individual varieties are not available. As of 10/2022. Subject to change without notice.
