COUNTRY G 2015

Permanent meadow for dry sites

Mixture for extensive meadows on dry sites with white clover

Profile

Festuca pratensis, Festuca rubra rubra and Phleum pratense provide good winter hardiness and persistency to this mixture. Festuca rubra rubra and Poa pratensis close gaps in the sward due to rhizome development. Trifolium pratense and Trifolium repens increase palatability, protein yield and N-fixation.

- ✓ Robust and dense sward
- Clovers for N-fixation

Components

25%	Festuca pratensis Liherold
10%	Lolium perenne (early) Mirtello
10%	Lolium perenne (intermediate) Alligator
10%	Lolium perenne (late) Valerio
10%	Poa pratensis Limagie
10%	Festuca rubra Rafael
10%	Trifolium repens Bianca, Liflex
10%	Trifolium pratense Taifun, Milvus
5%	Phleum pratense Lischka

If individual varieties are not available, they are replaced by equivalent ones.

Sowing pattern

New sowing

Locations

Dry	+ + +
Normal	+ +
