

EG PRO 320 SHADE

Profile

EG PRO Shade is specially designed for shaded areas, but will also perform well in open conditions. Shade mixtures are ideal for areas around buildings and under and around trees on varying soil types. Due to the high content of heat and dry tolerant species and varieties in EG Pro 320, this mixture is also suitable for hot and dry conditions.

Available in 5 kg and 10 kg paper bags.

- ✓ Shade, drought and heat tolerant
- ✓ Wear tolerant
- ✓ Suitable under trees and building shades
- ✓ Very suitable where shade is combined with dry conditions

Components

70%	Festuca arundinacea
20%	Festuca rubra rubra
10%	Lolium perenne
